REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant has amended the claims to overcome the 112 rejection, and has persuasively argued against the obviousness rejection from the last office action by pointing out that one of ordinary skill in the art would not have a motivation to modify the intermediate lacking any disclosed utility.

The closest prior art is: Kimata et al. (previously amended around):

~~2,4-dihydroxy-5-propyl-benzophenone~~, differing from the claim scope by having a non-hydrogen substitution at the 5-position.

Similarly, another close prior art is Hamada et al. (Bioorganic & Medicinal Chemistry Letters (2003), 13(19), 3151-3153.):

, but in this case the R1A and R6A substituents are outside the claim scope. Applicant has also overcome the ODP rejection by filing a TD.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
